

# Claset-veyor™

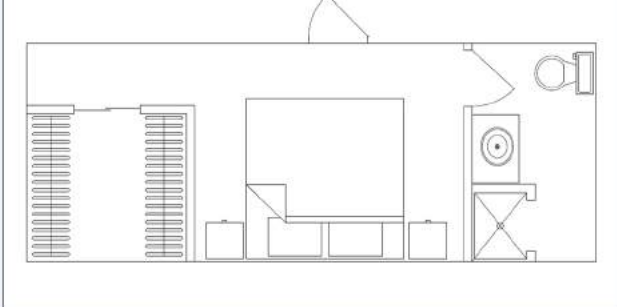

## Luxury Closet Automation

The Claset-veyor™ is a new automated wardrobe system that simplifies an industrial conveyor into a storage solution for residential applications during renovations or pre-construction.

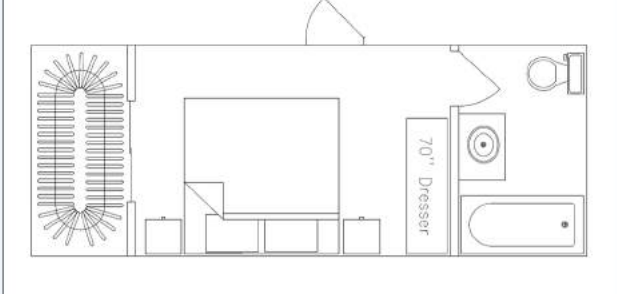

Built-in as an accessory item for various cabinetry designs or added feature trend for residential homes, condominiums and apartments.

The Claset-veyor™ is manufactured in Canada by PACLINE Overhead Conveyors. **Easy to install. Design is flexible. Optional reach points.**
